

# CIRCULAR ASYMMETRIC REDUCER – ROA

## Description:

The asymmetric reducer has male-sized endings. Used for airflow reduction in spiro ducts.

## Characteristics:

Sheet type: galvanized  
 Connection method: seam lock, spot weld  
 Standard design:  $h = 50$  mm  
 Endings: male  
 Leakproofness standard: Class A, Class B

## Sample manufactured element dimensions:

$\varnothing d1$ (mm)	$\varnothing d2$ (mm)	L (mm)	e (mm)
