

SINGLE-PLANE METAL DAMPER – PJP-M

Description:

Single-plane dampers control or close airflow in the ventilation duct. Single-plane dampers are equipped with one blade and the manual control mechanism is made of metal. The blade is rotated with a metal handle. Additionally, it is possible to lock the blade position with a butterfly nut.

Characteristics:

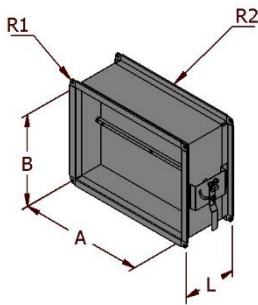

Sheet type: galvanized

Connection method: seam lock, spot weld

Standard design: L = 200mm

Endings: P20, P20 LR, P30, P30 LR, bare end, outward bending

Leakproofness standard: Class A, Class B

Sample manufactured element dimensions:

A (mm)	B (mm)	L (mm)
200	200	200
300	300	200
400	400	200
500	400	200
600	400	200
700	400	200
800	400	200
1000	400	200
1500	400	200
