

SINGLE-PLANE PVC DAMPER – PJP

Description:

Single-plane dampers control or close airflow in the ventilation duct. Single plane dampers are equipped with one blade and the manual control mechanism is made of PVC. The blade is rotated with a knob and the blade angle may be read from the knob guard. Additionally, it is possible to lock the blade position with two locking screws.

Characteristics:

Sheet type: galvanized
 Connection method: seam lock, spot weld
 Standard design: L = 200mm
 Endings: P20, P20 LR, P30, P30 LR, bare end, outward bending
 Leakproofness standard: Class A, Class B

Sample manufactured element dimensions:

A (mm)	B (mm)	L (mm)
200	200	200
300	300	200
400	400	200
500	400	200
600	400	200
700	400	200
800	400	200
1000	400	200
1500	400	200
